

# Lily and Ermine

1. Watch the animation and put the sentences in the right order.

Lily is a nice little girl. She lives with her parents in a small house in the mountains. She likes the mountains a lot; she also likes the woods with their trees, birds and all the animals.

She really liked her new friend; she even gave him a name, Snowy.

Something or somebody had scared them away.

The snowman still needed a hat, but she did not have one.

Suddenly, she heard some birds making crazy noises.

One day last winter, Lily was outside in the snow. She was making a snowman, because she likes them a lot.

So she took two small branches, and put them on his head.
